

Promed Service Options

Fridge Servicing, Testing and Calibration

We install, validate and train customers on the correct use of all fridge models in the Lec pharmacy refrigeration range.

Comprehensive Planned maintenance is completed on these units including:

- Fridge alarm checks temperature and door (where applicable).
- Internal/External focus.
- Temperature validation.
- Fridge settings.
- Electrical safety checks.

“We have used Promed for the installation and the servicing of all our Pharmacy Fridges in the Lloyds Pharmacy Group. We find Promed very easy to deal with and extremely professional. I find all goods are delivered in an efficient way on the date and time agreed. All the staff are extremely helpful and knowledgeable. I would recommend Promed to all Pharmacies.”
