

G25, G26, Z51G

A range of nitrile gloves providing protection against many solvents and oil based chemicals.

These nitrile gloves are ideal for a range of industrial environments. With high levels of resistance to abrasion and a raised grip pattern they provide protection with flexibility and sensitivity. Available in blue or green, the G25 have a cotton flock lining for user comfort, while the G26 is unlined. Both styles are available in five sizes to suit all users. Z51G is a longer, elbow length gauntlet style glove with flock lining for comfort in extended use.
