

How do you record the temperature changes in your fridge?

Do you have a data logger?

- Data Loggers automatically Log & record the temperature of your fridge
- This information is invaluable in the event of power outages and temperature breaches
- It enables easy sharing of temperature and duration of breach with Regulatory bodies and Service Engineers
- As per HSE & PSI guidelines, data loggers should be used in all fridges where vaccines are stored

- Easily set up logger and downloaded data viewed via PC's USB port, using free EasyLog software
- Data can then be graphed, printed and exported to other applications for detailed analysis
