

PAEDIATRIC WALKER

Paediatric Walkers are designed to stabilise and protect the lower leg, ankle and foot. They are easy to operate and comfortable to wear, making them ideal for an active child who requires stability following a sprain, stress fracture, or surgery.

INDICATIONS FOR USE

- Soft tissue injuries
- Grade 2 and 3 sprains
- Stable fractures
- Post-operative ankle stabilisation
- Trauma and rehab use

FEATURES AND BENEFITS

- High quality rigid outer skeleton for protection
- Dense foam lining within the sole to provide comfort and support
- Shock absorbing sole to improve comfort and protects the user from slips, providing additional security in each step
- Uprights give additional stability by restricting motion of the leg
- Lightweight design perfectly designed for kids to keep active

REQUIRED MEASUREMENTS

- Shoe size
